Anti-Bullying Week- The change starts with us.

Top Tips

It doesn't matter what colour hair you have; what trainers you are wearing; how you speak; how you walk;- it is not your fault if you get bullied. We are all different in some way.

It can be tempting if you are being bullied to retaliate - to send a horrible message back to someone, to try

and embarrass and hurt the other person, or to fight back. This is not a good idea - you might end up getting into trouble or get yourself even more hurt.
